Figure / OBSERVATION

The figure consists of 10 sub-diagrams arranged in two rows of five. Each sub-diagram shows a different stage of a 2D hexagonal lattice. The first sub-diagram shows a single hexagon. The second shows two hexagons sharing a common edge. The third shows three hexagons in a chain. The fourth shows a small cluster of four hexagons. The fifth shows a more complex cluster of five hexagons. The sixth sub-diagram shows a larger cluster of six hexagons. The seventh shows a cluster of seven hexagons. The eighth shows a cluster of eight hexagons. The ninth shows a cluster of nine hexagons. The tenth sub-diagram shows a large, interconnected network of many hexagons, representing a percolating cluster.
